urday morning that John Samuels had taken his own ilfe, the community received a shock, such as it has sel-dom experienced. For twenty-eight had taken his own me, to received a shock, such as it has seldom experienced. For swenty-elight years Mr. Samuels has been closely and Jargely identified with the business interests of Mt. Steeling. His long career as a business man brought him into close contact with our people and his upright life and generous deeds won for him a piace in their affections, few 'men are fortunate annuals to secure.

the repeal consists of Senators Liarus, Vest, Vance, Jones, of Arkansas, and Jones, of Navada.

A stockholder of the Northern Pacific railroad has retained counsel the man he was before, and when the present financial distress overtook the country, he appeared to be more unred and more solicitions about the outcome than the situation would seem to warrant. His business affairs, which were in probably no worse condition than the majority of those around him, gave him great distress of mind. Kind friends able and willing to help bins in any way, finding around him gave him great distress of mind. Kind friends able and willing to help bin in any way, finding him in such condition, came to him with offers of ald; tried to sawre him that his financial condition was not such as he deemed it. But all in vain. His family has for nearly two weeks, kept a close watch on him and all the night before the tragedy his faithful wife watched him; but about 4 o'clock she fell a sleep for a few minutes, thinking he too was sleeping; and he selzed the opportunity to quietly dress and escape from the house. The with soon wakened and instituted search for him. He had gone out of the hones and was seen going in the direction of his store by a negro man, others saw him quietly walking up Main atreet, but he proceeded towards to solve the New Acceptate towards to solve the New Acceptate towards he not mark him. ing up Main street, but he pro-ed toward the pool near the New tet Distlilery, where he evidently

who know him.

The Washington correspondent in the Courler-Journal states that the Associated Press dispatches are incorrect in reporting a majority in the Senace to be against the repeal of the purchasing Sherman act A majority, he declares, are in favor of repeal, and the policy of the opponents of repeal is to defeat a vote by obstruction methods. The advocates of the Wilson Repeal Bill, when that measure reaches the Senante, after hardware passed the house, propose to bring legislation in the lower body to a standard still until the upper house shall take island in the lower body at a state astill until the upper house shall take action on it, thus throwing the responsibility for the pressing financial distress where it will belong.

The Administration and the friends of unconditional repeal of the particularing clause with the Steman act won a victory in the Senate Finance Committee meeting Thursday, Senator Voorhees, the Chairman of the committee, voted for unconditional repeal, coupled with a declaration in favor of binnealilam—bit wote enabling the members advocating repeal to decide by a majority of one that the committee shall favorably report abili similar to the Wilson bill in the House. The minority voting against the repeal consists of Senators Harrts, Vesl, Yance, Jones, of Arkanssa, and Jones, of Navada. The Administration and the friend

Charles S. O'Farreli was Thursday nominated for Governor by the Vir ginia Democratic convention, and R C. Kent for Lieutenant Governor

Hill's Bill for the Repeal of the Election Laws.

Washington, D. C., Aug. 20, 1893.
Senator Voorhees tumbled down a good many imaginary structures when he asked and obtained the consent of the Senate for the Finance Committee to hold daily meetings while the Senate is in session, in order to consider and report a financial bill. A number of industrious liars have been work more discontinuous and reports a financial bill. bill favorably reported by the Finance bill favorably reported by the Finance committee and endowed by Secretary Carlisie, authorizing National banks to issue currency to the full amount of bonds they have deposited to secure the same. Senator Cockreil has proposed several amendments to the bill, because of his belief that the National banks already enjoy too many privileges. But inasmuch as the country is greatly in need of the additional currency which would at once be put in circulation were the bill a law, there is little doubt that it will be passed is little doubt that it will be passed John Dabney's Beautiful Subur without material amendment.

The House has another week of silver debate ahead of it before the wer debate ahead of it before the woting begins. The unconditional re-peal men appear to grow more confi-dent of the result, although they ad-mit if the rumor which is current, that forty or fifty of the Republicans have agreed to vote with the silver men for the amendment providing for the free coinage of silver at a rate of 20 to 1 shall prove to be true they will 20 to 1, shall prove to be true they will be defeated and the amendment adopted. The rumor, however, appears to have a very slender founda-tion, as Representative Bland, the sil-

Representative Grosvenor, of Ohio, appears to be in a bad way. He claimed in a speech made in the House this week that President Cleve-iand's message to Congress was an appeal to partisanehlp. Many things have been said about the message, but so far Grosvenor is the only man who has been able to see not included. so far Grosvesor is the only man who has been able to see partiasnship in it. During the Harrison administration Grosvesor had to be sent to Europe on a Government mission to keep him out of mischief, and it is a great pity that he cannot now be sent somewhere to remain null the financial question is disposed of.

It has been stated here this week that Prosident Cleveland was unafterably opposed to any compromise and desired Congress to either unconditionally repeal the purchasing clause of the Sherman law or to let it alone. Your correspondent vainly endeavorad to find a Democratic Senator or Representative who had personal knowledge that such are Mr. Cleveland's sentiments. That he would prefer unconditional repeal is certain; but that he would veto conditional repeal I do not believe.

MONEY MATTERS.

ARE always a topic that interests. Its a topic that puts all good people to thinking, and generally takes lots of hustle to keep on top with them. Money is hard to get and harder to save, but there are ways and ways to do a thing. One piece of folly is to pay rent forever. There is a better way to live and have a home. Go to Baird & Winn and borrow the money on easy terms and easy payments. Buy the house and let them insure it against fire and tornado, and then have them insure your life, so that grim death's coming won't leave your wife and children penniless.
